3. Budget Implementation Analysis.

3.1 Introduction

The County continued implementation of the budget for the year 2023/2024. The County made progress in undertaking programs that will enhance the livelihood of its citizens in accordance with article 174 of the Constitution of Kenya.

The fiscal performance for the first half is contained in this section here below.

3.2 Revenue

Own source revenue is the revenue the County Government collects from taxes, charges and fees for services the county provides and from business licenses and permits. Own source revenue is critical to the County as it provides for much needed funds when there are delays in release of equitable share. As such, the County is keen to realize the revenue target set in the budget of KShs. 1.115Bn. The County increased own source revenue to 1.116B as shown below;

From the above analyses, the major sources of revenue for the County registered significant increase in the current year 2023/2024. This has been greatly attributed to measures the County Government has implemented to optimize collection of own source revenue. These measures include continued automation of revenue collections to curb leakage, enhanced enforcement, inspection and follow up of defaulters, improved service provision in health care that has increased the patients visiting the health centres. Other efforts include sensitization to the public on the need to pay revenue to the County Government. This has seen motorbikes that were previously not paying parking fees come on board and agree to pay parking fees.

3.3. Expenditure

In financial year 2023/2024, the County Government spent KShs. 8,706,255,850. Out of this Kshs. 6,659,935,510 on recurrent expenditure and KShs. 2,046,320,340 on development expenditure. The total expenditure represented a total of 83.6% absorption rate of the budget.
